

SEAC

NEWSLETTER

SOUTHEASTERN ARCHAEOLOGICAL CONFERENCE • Volume 24, No. 1 • 1982

Subscription Information

The SEAC Newsletter is published biannually in April and October by the Southeastern Archaeological Conference. Subscription is by membership in the SEAC. Dues for annual membership are \$10 for individuals, \$2.50 for family and \$12.50 for institutions. Membership includes two issues of *Southeastern Archaeology* and two (2) newsletters. Requests for memberships, subscriptions, dues, and changes of address should be addressed to the treasurer; orders for back issues and manuscripts for publication in *Southeastern Archaeology* to the *Southeastern Archaeology* editor; and Newsletter items to the Associate Editor.

Officers

President: Bruce D. Smith, Department of Anthropology, National Museum of Natural History, Smithsonian Institution, Washington, DC 20560. Tel [202] 357-1394. 1982-1983.

Secretary: Rochelle Marrinan, Florida State Museum, Department of Social Sciences, University of Florida, Gainesville, FL 32611. Tel [904] 392-1721. 1980-1982.

Secretary-elect: Marvin D. Jeter, Arkansas Archaeological Survey, Box 3087, University of Arkansas-Monticello, Monticello, AR 71656. Tel [501] 367-6811 ext. 24. 1982.

Treasurer: Kathleen Deagan, Department of Anthropology, Florida State University, Tallahassee, FL 32306. Tel [904] 644-4281. 1981-1983.

Editor: William H. Marquardt, Institute of Archaeology and Anthropology, University of South Carolina, Columbia, SC 29208. Tel [803] 777-8170. 1982-1984.

Associate Editor: David H. Dye, Department of Anthropology, Memphis State University, Memphis, TN 38152. Tel [901] 454-2080.

Executive Officer I: Jefferson Chapman, Department of Anthropology, University of Tennessee, Knoxville, TN 37916. Tel [615] 974-4408. 1982-1983.

Executive Officer II: Christopher S. Peebles, Department of Anthropology, Northwestern University, Evanston, IL 60201. Tel [312] 492-5402. 1981-1982.

1981 BUSINESS MEETING

Treasurer Deagan reported the following:

I.	Balance from Price treasury		\$2,180.70
II.	Income		
	A. Dues collected at 1980 meeting	\$1,524.00	
	Back dues for 1980	20.00	
	Post-meeting 1981 dues	1,725.00	
	1982 dues	285.00	
	Life memberships	300.00	
	Total dues:		3,854.00
	B. Publication sales at 1980 meeting	1,360.85	
	Late sales for 1980 meeting	287.90	
	Back issues after 1980 meeting	403.08	
	Total sales:		2,051.83
	C. Contributed page costs		694.50
	D. Registration fees for 1980 meeting		3,343.00
	Total Income:		<u>9,943.33</u>
III.	Expenditures		
	A. Bulletin 17/23 printing	2,112.00	
	Shipping	300.00	
	Newsletter COD charges (Dye to Milanich)	24.95	
	Total Bulletin 17/23 expenses:		2,436.95
	B. Newsletter printing	1,052.00	
	Newsletter shipping	114.00	
	Newsletter typing and printing	43.02	
	Total Newsletter expenses:		1,209.02
	C. 1980 conference		
	hotel	1,008.43	
	program printing	175.36	
	machine rental	258.83	
	A-V services	686.00	
	NOLA tourism commission	531.50	
	Total conference expenses:		2,660.12
	D. Treasurer's expenses		
	postage	22.74	
	rubber stamp	5.41	
	checks	5.03	
	Total treasurer expenses:		33.18
	E. Mailing labels		
	labor for typing and coding	35.00	
	three sets of labels	55.42	
	Total mailing label expenses:		90.42
	F. Refunds		
	out of print publications	75.55	
	dues overpayment	10.00	
	Total refund expenses:		85.55
	G. Returned checks		45.00
	H. Editor's expenses (forwarded to Marquardt)		200.00
	Total Expenditures:		<u>6,760.24</u>
IV.	Balance from Price treasury		2,180.70
V.	Total Income		<u>9,180.70</u>
			12,124.03
VI.	Expenditures		<u>6,760.24</u>
VII.	November 11, 1981 balance		<u>5,363.79</u>

CURRENT RESEARCH

Alabama

Auburn University

As a result of continued erosion and vandalism of significant cultural resources located in the Seven Mile Island Archaeological District, a federal property listed on the National Register of Historic Places, the Tennessee Valley Authority (TVA) has requested an archaeological survey and report of the island's resources. This survey and evaluation is necessary in order to identify significant cultural resources and assess the extent of both natural and human damage to these sites, as well as to establish a plan for future cultural resource management of the island based on professional recommendations.

Seven Mile Island lies just below Florence, Alabama in the Tennessee River. The island was partially inundated by the creation of Pickwick Reservoir in 1938.

The primary, immediate need is for an intensive survey of the district to determine cultural resources loci. Auburn University began field work in December under the direction of Gregory Waselkov and Robert Morgan. The research design has two major goals: 1) to accurately determine the nature and condition of archaeological sites in the district, and 2) to study the river's past and present geomorphology and hydrologic dynamics (including erosional impact in relation to site location). Field methods include inspection of all land/water interfaces, shovel testing in the inland area, and utilization of posthole tests to ascertain the depths of surface middens and to discover buried components. To date, the shoreline survey is nearly complete and laboratory analysis of materials collected has begun. The interior island survey will begin in February, and the final report to TVA should be submitted in July, 1982.

New Personnel

The Department of Sociology and Anthropology at Auburn University announces the appointment of Robert Morgan as a research associate. Morgan recently received his M.A. from the University of Missouri-Columbia. His research interests include the prehistory and history of the southeastern United States, culture change, subsistence economies and settlement patterns, archaeological method and theory, and mathematical model applications in archaeology.

John W. Cottier
Department of Sociology and Anthropology
Auburn University
Auburn, AL 36849

Louisiana

Louisiana State University

Excavations at Poverty Point were begun in 1980 and will continue through the 1982 field season. The major objective is to excavate a 5 m wide trench through ridge 1 in the northwestern ridge sector of the site. To date only the northern sector of the area has been opened and excavation has reached 2 m below surface in this area. Sterile soil has yet to be encountered. Evidence of 5 structures has been recovered as have the entire range of artifacts composing the Poverty

Point assemblage. The 1982 season will complete the northern trench and will begin to open the southern portion of the ridge. Additionally, a magnetometer survey of selected portions of the site will be conducted as well as limited testing of anomalies encountered by this survey. Louisiana State University and Louisiana Office of State Parks sponsor the project which will be partially funded in 1982 by Project Earthwatch. Sharon I. Goad is director of the project, which will run from June 5 through August 15.

Baton Rouge, LA 70803

Missouri

Southwest Missouri State University

The Southeast Field Station (Naylor, MO) of the Center for Archaeological Research, Southwest Missouri State University has been actively engaged in projects throughout an eighteen county area of Southeast Missouri, both in the Ozark Highlands and the Western Lowlands of the Mississippi Alluvial Valley.

The primary focus in the last year was the intensive survey of over 4,500 ha of Mark Twain National Forest. This work was done under the overall direction of James E. Price and Burton L. Purrington. Timothy K. Perttula served as project field director. Over 90% of the survey lands were in rugged terrain on interior ridge systems well away from major river valleys and permanent sources of fresh water. As a result, historic and prehistoric settlement was of relatively low density. Aside from primarily late 19th-early 20th century sites associated with the lumber boom and mineral exploitation, prehistoric sites in interior country seem to be present only in valley situations and associated with wet sinkholes. Wet and dry sinkholes are abundant in the karst landforms of the Eastern Ozark Highlands, and a number of large sinkhole archaeological sites have recently been recorded in the region. Where sufficient information is available, the exploitation of ridgetop sinkholes, and interior lands in general, seems to have occurred almost exclusively during the Late Archaic period. The sites are marked by high quantities of quartzite debris, and the assemblages are consistently similar in tool and debris types present. The sites appear to be limited activity sites rather than residential locations, and would seem to be a main component of the dispersed and wide-ranging Late Archaic settlement system in the Eastern Ozarks. Because of the number of sinkholes present, it is apparent that there are potentially a large number of prehistoric sites present in interior lands that have yet to be recorded or recognized, and because of their remote location, are not significantly disturbed by developments or collector activities. Steps are being taken to identify sinkhole locations from U.S. Geological Survey and Soil Survey maps for predictive modeling of site location parameters.

The opportunity to examine large tracts of land has created the need for extensive literature and background searches in Mark Twain National Forest to develop and refine historical and prehistoric settlement models in the Eastern Ozarks. This research has been coordinated and carried out by Cynthia R. Price.

A five year program of archaeological investigations in Ozark National Scenic Riverways funded by the National Park Service, Midwest Archeological Center was begun by the Southeast Field Station staff. The program has four main research topics: (1) historic archaeological and archival studies under the direction of Cynthia R. Price; (2) the study of private artifact collections by James E. Price;

(3) the intensive survey of food plots and old fields along the Current and Jacks Fork Rivers by James E. Price and Timothy K. Perttula; and (4) a geomorphological study of the Current River Valley by Roger Saucier of the U.S. Army Corps of Engineers, Experimental Waterways Division, Vicksburg, MS. Contributions are expected to be not only in evaluating the nature and significance of prehistoric and historic archaeological resources in the Riverways, but in understanding both the cultural sequence and changing cultural adaptations in an area where very little professional research has been completed.

The intensive analysis of the large artifact collections from the Powers Fort site, recently purchased by the Archaeological Conservancy, are being continued by Timothy K. Perttula. Besides the main occupation during the Powers phase when the site was the civic-ceremonial center, earlier occupations range from Dalton to an extensive Late Archaic component. The purposes of the project are to synthesize past research at this important site, to understand the diachronic nature of the occupations on Barfield Ridge in the Western Lowlands, and to thoroughly describe the site artifact assemblages.

Missouri University of Washington

In 1979 Robert C. Dunnell initiated a systematic surface survey in west-central Dunklin County, Missouri with funding provided by a grant from the University of Washington Graduate School Research Fund. The principal objectives of the project are to define the nature of settlement during the Mississippian and preceding ceramic periods and to assess the value of surficial data in this intensively agricultural area. In order to maintain comparability of conditions, fieldwork has been restricted to approximately two weeks in late June and early July. Additional surveys were carried out in 1980 and 1981 with the result that over 4000 four meter units have been collected along a natural levee of the Varney River. The collection area is comprised by two blocks of contiguous four meter units separated by a small woodlot. Approximately three quarters of a mile of the levee is covered.

Some 80 separate variables are being monitored in the analysis and preliminary density maps for the 1979 and 1980 work are available for selected variables. The density maps indicate a number of small (ca. 50 m) settlements rather evenly spaced along the levee during the period in which Barnes ceramics were in use. Early Mississippian material, closely allied to if not identical with Morse's Big Lake phase in northeastern Arkansas, shows the same general pattern, but the clusters are roughly twice as large. A single test unit in one of the Early Mississippian clusters revealed the presence of subsurface features within these clusters (confirmed by a second test unit dug in 1981) along with abundant maize. Wood charcoal associated with the maize produced a date of AD 840 \pm 130 (RL-1418) quite consistent with the radiocarbon age of the Big Lake material. Middle and Late Mississippian materials are conspicuously absent from the area thus far incorporated by the survey. Random and widely scattered projectile points referable to the Late Archaic and Early Woodland indicate a transient non-domestic use of the levee during these periods.

Ango-American material is clustered in a similar fashion to the Early Mississippian materials and spans a period from about 1840 to the present. These clusters represent domestic sites. Those that are documented were single dwellings. There is also evidence of a transient hunting use of the levee during the same period.

FROM THE EDITOR

Special DeJarnette publication available

SEAC Special Publication No. 5 is now available. The monograph contains the following papers from a special symposium held in honor of David L. DeJarnette, organized by John A. Walthall, held November 6, 1976 at the 33rd Southeastern Archaeological Conference in Tuscaloosa.

- "David L. DeJarnette" by John A. Walthall
- "A brief tribute to David L. DeJarnette" by James B. Griffin
- "The first 101 years of Alabama zooarchaeology" by Cailup B. Curren, Jr.
- "Dadeville: an Early Mississippian ceramic series from the Tallapoosa River area of central Alabama" by Roy S. Dickens and James H. Chapman
- "Archaeology at 1Je34, a Late West Jefferson phase site" by Hal B. Ensor
- "Terminal Woodland-Mississippian interaction in northern Alabama: the West Jefferson phase" by Ned J. Jenkins
- "Childersburg: evidence of European contact demonstrated by archaeological plant remains" by Elisabeth Shepard Sheldon
- "A summary of the historic aboriginal occupations of the Gunter'sville Basin, Alabama" by Victor K. Fleming and John A. Walthall

It may be ordered from the editor at a cost of \$5.00. Due to funding limitations, the publication will not be distributed as a privilege of membership in the Conference.

Bulletin 20 and Bulletin 21 still in the works

Bulletin 20, containing papers given at the Tuscaloosa meetings (1976), has not yet been printed. It will be combined with Bulletin 21, containing the papers from the Lafayette meetings (1977). Bulletins 20 and 21 will be distributed free to those who were members in 1976 or 1977.

Bulletin 24 ready to mail

Bulletin 24 has been received from the printer and will be distributed in February, 1982 to all 1981 members and all senior and life members. Those who were not members in 1981 may purchase a copy of Bulletin 24 for \$10.00.

Papers solicited for Southeastern Archaeology, Volume 1, Number 2

The new journal, which replaces the Bulletin, will be published in 1982 and distributed to all 1982 members, senior members, and life members. As of January, 1982, nine papers had been received for consideration for Volume 1, Number 1. Members are encouraged to submit papers now for possible publication in Volume 1, Number 2. Four copies of the paper should be submitted. A 25 to 50-word abstract should be included, as well.

William H. Marquardt, Editor SEAC
Institute of Archeology and Anthropology
University of South Carolina
Columbia, SC 29208

NOTES

39th Annual Meeting

Southeastern Archaeological Conference

The 39th Annual Meeting of the Southeastern Archaeological Conference will be held October 27, 28, and 29 at the Ramada Inn Convention Center (160 Union Av.) in Memphis, TN. David H. Dye (Memphis State University) is chairing the program and Charles H. McNutt (Memphis State University) is the meeting coordinator. Titles and abstracts should be sent to: David H. Dye, Department of Anthropology, Memphis State University, Memphis, TN 38152 (901-454-2080).

Southeastern Archaeology

The officers of the Southeastern Archaeological Conference have approved the creation of a new journal to be published by the Conference. It will be published twice yearly and will be distributed as a benefit of membership in the SEAC. The journal, to be called Southeastern Archaeology, will include both substantive and theoretical articles, as well as discussion, debate, features, and commentary. The focus of the journal will be on the archaeology — prehistoric and historic — of the southeastern United States. All articles submitted for publication will be reviewed critically by three or more peers chosen for their knowledge of the subject matter of the papers. Papers need not have been presented at a meeting of the Southeastern Archaeological Conference in order to be submitted for publication. Papers should be typed, double-spaced, with ample margins, on good quality non-erasable bond paper. Good quality photocopies are acceptable. Four copies of the paper should be submitted. Foot notes should be avoided unless they are absolutely essential. Style should conform to the standards published in American Antiquity, the January 1979 issue. Papers will be considered for publication at anytime. Send manuscripts to:

William H. Marquardt, Editor SEAC
Institute of Archeology and Anthropology
University of South Carolina
Columbia, SC 29208

For further information concerning publications of the Southeastern Archaeological Conference, write to the above address, or call the editor at (803) 777-8170.

Florida Anthropological Society

The 34th Annual Meeting of the Florida Anthropological Society will be held in Tampa, FL at Stone's Travelodge, 2501 E. Fowler AV (813-971-3900). The meeting will start on Saturday (April 3, 1982) and run through Sunday (April 4, 1982). For registration and program information, contact Joan Deming, chairperson, 1839 Pine Cone Circle, Clearwater, FL 33520 (813-531-2152).

Florida Journal of Anthropology

The Florida Journal of Anthropology is a bi-annual scholarly publication of the University of Florida Anthropology Student Association at the University of Florida, Gainesville. The journal publishes articles dealing with present or past human behavior and biology. Original articles and book reviews dealing with any aspect of archaeology are especially solicited from professionals, students, or faculty. Manuscripts must be submitted in triplicate and should not exceed 25 double-spaced pages. References should follow American Anthropologist format (see "Style Guide" in Vol. 81:226-231). Please address all submissions to:

Editorial Coordinator
Florida Journal of Anthropology
Department of Anthropology
1350 GPA
University of Florida
Gainesville, FL 32611

Subscription to the Florida Journal of Anthropology is automatic with membership in the University of Florida Anthropology Student Association. Corresponding membership is open to all persons with an interest in anthropology. Annual dues are \$7.00 for individuals, \$12.00 for institutions. Make checks or money orders payable to U.F.A.S.A. and address all requests for membership or for further information about membership to the Treasurer at the above address.

Lower Mississippi Survey Honors Research of Colleagues

At an informal gathering of "old timers" at the Asheville Southeastern Archaeological Conference meeting, the Lower Mississippi Survey of Harvard's Peabody Museum presented "Honorary Fellow" certificates to three colleagues whose work was recognized as of pioneering quality and of long-standing value to scholars in the area. Honored were William G. Haag, Joffre L. Coe, and Robert S. Neitzel (posthumously).

Stephen Williams, Director of the LMS, in presenting the awards, spoke of Joffre Coe's contribution:

Although he has done darn little work in the Lower Valley, a summer 46 years ago at Kincaid hardly counts for much now, he has done a lot for the Lower Valley and the Southeast as a whole with his pioneering work in unraveling the skein of

THE SOUTHEASTERN ARCHAEOLOGICAL CONFERENCE

The Southeastern Archaeological Conference publishes Southeastern Archaeology (twice a year). The Newsletter is published twice a year (April and October) and is devoted to the dissemination of current information about regional archaeology and archaeological research. Special publications are irregularly published.

MEMBERSHIP

Membership is divided into several classes. Applications, payment of annual dues, or change of address can be reported on this page. Please be sure that your name and address are CLEARLY entered and that the checkmarks are in the applicable blanks. Make checks payable to Southeastern Archaeological Conference. Family membership must accompany an Active Membership.

MEMORANDUM

TO: Members of the Southeastern Archaeological Conference
FROM: David H. Dye, Program Chairman
RE: Call for papers

The 39th Annual Meeting of the Southeastern Archaeological Conference will be held October 28, 29, and 30 at the Ramada Inn Convention Center (160 Union Ave.) in Memphis, TN. Program chairman is David H. Dye (Memphis State University) and meeting coordinator is Charles H. McNutt (Memphis State University).

Guidelines and recommendations: Deadline for symposia and presented paper abstracts is September 1, 1982. Only members who have paid their 1982 SEAC dues will be permitted to present papers. Dues and membership information may be obtained from Kathleen Deagan, Department of Anthropology, Florida State University, Tallahassee, FL 32306. Individuals are limited to one paper. At the 1980 SEAC business meeting, the membership voted to limit concurrent sessions to three. Many members thought this number should be reduced to two. Therefore, concurrent sessions in most cases will be limited to two.

Symposia: Topical or thematic symposia will be scheduled in the mornings. This will restrict the number of sessions to a maximum of nine. Most of the symposia should be topical or problem oriented. Individual symposium papers should not exceed 20 minutes.

Contributed papers: Contributed papers which include topical or problem oriented emphases will be grouped, as much as possible, by subject into the appropriate sessions.

Current Research: Several sessions of 10 minute research papers will be scheduled.

Conference proceedings: Proceedings of the conference, consisting of the published abstracts, will be distributed at the meeting.

Preliminary programs: These will be mailed to the SEAC membership in September.

Hotel Registration Cards: These will be sent later in the year. They should be sent in by September 15th. If the conference does not occupy 125 rooms at the hotel there will be a charge for the meeting rooms.

Archaic archaeology. In his classic "Formative cultures of the Carolina Piedmont" he put his views before us clearly and without reservation. I quote "... stratified sites of depth and antiquity do exist...", and when an occupation zone can be found that represents a relatively short period of time the usual hodgepodge of projectile point types are not found -- only variations of one single theme... In light of this evidence, there can no longer be any doubt as to the diagnostic value of projectile points (emphasis added). No doubt at all, one might add cryptically, unless one digs in Illinois.

You see what Joffre was doing was setting forth the anti-golf bag hypothesis, but he just didn't know what to call it. Indeed, that is a theme that runs through his work -- he started work on the prehistory of the Uwharrie region in 1934; in 1964 he was still at it -- of course he did not know that he was following a research design that would be termed regional archaeology -- heck, the article hadn't been written in American Antiquity yet, so he just muddled along on his way unaware of what he was doing, or so it would seem to some.

Well, Joffre, your contribution will be honored tomorrow in story and maybe even verse (who can tell). Now I just want to say thanks for straightening out a few things from your LMS friends and colleagues.

Information For Contributors

The SEAC *Newsletter* is published biannually (April and October) by the Southeastern Archaeological Conference. Original short articles, book reviews, announcements, notes, current research and comments on the archaeology of the southeastern United States should be submitted to the editor.

All manuscript material must be typed double-spaced on one side of an 8½ by 11 inch white bond sheet leaving at least a 1 inch margin on all sides. Contributors are referred to *American Antiquity* and the *Chicago Manual of Style* for matters of style and reference. Footnotes are not permitted. Text citations are set in parentheses, e.g., [author 1975: 100]. References are listed alphabetically by author and chronologically by year. Style must follow format of this *Newsletter*. Tables should be typed on separate sheets with proper titles and numbered consecutively. A note should be made in the manuscript margin indicating where tables should appear. All illustrations must be submitted as black on white drawings or glossy prints and must not exceed 9 x 12 inches in size. All illustrations are numbered consecutively in a series and are labeled "Figure"; whereas all tabular material is numbered in a separate series labeled "Table." Each article must be accompanied by a short abstract.

DEADLINE: April issue - February 1; October issue - August 1.

Current Research - Write in narrative form a summary of your field work or any other project or research which you might normally report upon at a Current Research session. Photographs and line drawings will be accepted. Make your report a concise summary, following the format below (if at all possible). Please include the nature of the project (field school, grant sponsored research, etc.), dates of work, sponsoring institution, person in charge, current status of work, results.

Type of Research
(Federal, State Agency, University, Private, Other Agency [if federal] or State—Agency, or State—University, or State—Private Agency, or individual, or other)
Fieldwork
Laboratory
Publications
New Personnel
Other categories [i.e., other research] Categories not applicable may be omitted from body of text. These headings are only for purpose of organization.

Items published reflect the views of the authors; their publication does not signify endorsement by the Southeastern Archaeological Conference *Newsletter* or the Southeastern Archaeological Conference.
