

JOIN THE CULTURAL RESOURCES TEAM AT GDOT!

Being an Architectural Historian or Archaeologist at GDOT provides...

- Opportunities to further your Architectural History or Archaeology career while learning the ins and outs of Section 106 and Cultural Resource Management
- Gain knowledge of and exposure to a great variety of resource types throughout Georgia
- Opportunities to consult directly with federal and state agencies, federally recognized tribal governments, and a variety of consulting parties
- Work alongside a wide range of transportation and environmental professionals
- Gain experience in all aspects of project management
- Be at the forefront of cultural resource management initiatives at an agency level such as development of context studies, programmatic guidance, and project level mitigations
- Serve as a leader in building professional relationships between GDOT and the consultant community
- Excellent benefits, hybrid work environment, generous & flexible time off, and other state perks
